

**Here are the sentence sets of the situation identification test. What is to happen is a person hears one sentence from the set, and is then asked later to select which of several alternatives describes the same situation as was heard earlier. The original sentence is never among the alternatives. I really don't like this test and I can't recommend using it. Nonetheless, here it is.**

After hearing that he got the job he sat in the bar and had another drink.  
After hearing that he was fired he sat in the bar and got drunk.
