Hello,

Anyone who has students using the student machines needs to tell them to edit their .cshrc files as follows:

They need to replace (it's right near the beginning, after the initial comments):

```
if ( -r /usr/local/Startup/Cshrc ) then
    source /usr/local/Startup/Cshrc
endif
```

with:

```
if (-r /opt/und/Startup/Cshrc) then
    source /opt/und/Startup/Cshrc
else if (-r /usr/local/Startup/Cshrc) then
    source /usr/local/Startup/Cshrc
endif
```

Otherwise, they will have all kinds of problems.

M. D.
