Declaration

By signing this I declare the following:

- The experiment was performed and the data taken with the student co-worker named below.
  Name of student co-worker: ________________________________

- I may have had discussions with others, but all other work reported here, like calculations, figures and text, is my own, unless explicitly indicated.

- Experiments were conducted in accordance with the laboratory rules:
  - There were two or more persons present in the laboratory during the experiments.
  - All reasonable safety precautions were taken in the laboratory.
  - I have signed the laboratory register logging in and out.
  - The experimental equipment was left essentially as I found it. It was either in working order or any malfunction was reported to the staff. Tools used were returned to their places.

My signature: ________________________________
