Project 1 resubmission

*Note: this work is optional.*

**Purpose**

The purpose of this assignment is to give you a chance to make changes and improvements to your beverage scene from project 1, by taking into account the critique and feedback you have received, and by making use of what you have learned since then.

There is no guarantee that your grade will increase as a result. If it does increase, it will only be by one level.

One thing you can rest assured of though is that your grade will not decrease!

(I’m not that mean! 😊)

(note: if you choose to work on this, you would be doing it in parallel with project 2)

**Preliminaries**

Create a `proj1_resub` folder under your course directory dropbox

**Deliverables**

Submit your scene (`drink2.mb`) as well as your image (in tif format, with a name of your choice), and any other related files, to your dropbox’s `proj1_resub` directory.

**Due Date**

Friday 3/4/16, 6 pm
