

CCC Storage Area Network (SAN) User Agreement

Please read the following terms and conditions carefully. By using the CCC SAN you acknowledge that you have read, understood and that you agree to be bound by the terms and conditions listed on this form.

The purpose of the SAN is to provide a professional data storage environment on a short-term basis for student projects, instructional initiatives and faculty research in the College. The SAN is a “working space” for current projects and not for general data storage on an indefinite basis. The CCC is committed to serving as wide a constituency as possible and will make every effort to accommodate each request. There may, however, be times when requests cannot be granted due to availability and demand.

- Space is assigned on a first-come, first-served basis.
- All space is assigned for a specific period of time.
- Users should be selective about which files/footage to download to maximize efficiency of storage space.
- *Files on the SAN are not backed up.* Critical files should be backed-up on user’s own media.
- Students may request space but must be sponsored by a faculty member.
- The SAN is to be used only for production related to student coursework or faculty teaching or research.
- All files must be removed within one week after the last exam day of the semester.
- The CCC cannot be responsible for contacting account holders about removing their files.
- The SAN will be repartitioned at the end of each semester.
- *Data files left on the SAN after your end date will be deleted in the repartition process.*

Notice to all SAN users: Equipment failure and unforeseen accidents can occur, therefore, all data stored on the SAN is at the user’s own risk. Critical files should be backed-up on user’s own media. The CCC cannot be responsible for lost or corrupted data on the SAN.

Use of the CCC SAN must be in compliance with the policies contained in:
http://policy.nd.edu/policy_files/ResponsibleUseITResourcesPolicy.pdf
