This course includes an online homework system called Enhanced WebAssign. To complete your assignments you will need to register with WebAssign. This registration process requires 2 items:

1) An Access Code (this was packaged with your text, can be purchased in the bookstore or purchased online from WebAssign directly). This tells the system that you have purchased copy written material from the publisher.

2) A Class Key (this is provided by your instructor). This tells the system into which professor’s grade book you should be placed.

1) Go to http://www.webassign.net/login
   2) Select ‘I have a Class Key’

3) Enter your Institution name and the Class Key provided by your instructor
   4) Verify that this is your class

To register and login go to: http://www.webassign.net/login
5) Create your own username and password

6) Write down your Username, Institution code and Password so you remember it the next time you login at http://www.webassign.net/login

7) You will have 14 days from the class start date to access WebAssign without your access code. You must have an access code after this date to take your homework assignments

8) While in your account you can register your access code later by clicking on “Enter an Access Code Now”

To register and login go to: http://www.webassign.net/login
