General Instructions: This Extra Credit assignment must be turned in by 11:59pm on the date due.

1. (10 Points in the Group Project 1 category)

Often, students focus on their homework, insomuch that they forget to enjoy their time here at Notre Dame. Not only is this dreadfully boring, but it is also not good for your mental well-being. This extra credit assignment is meant to be something that should be fun and relaxing for you.

Your assignment is to submit a picture of yourself doing something fun (with a few requirements).

1. You must be outdoors.
2. You must be off-campus.
3. You must be with someone else. Friend, enemy, or stranger... just don’t be alone. It does not need to be someone from this class, either.
4. Your picture may be a selfie, or it may be taken by someone else. The other person (or other people... you can do this as part of a group) doesn’t have to be in the photo with you. It’s up to you how you want to remember this outing.

Upload the picture and a short (one paragraph maximum) description of what you did to the appropriate entry in Sakai.

Above all, remember to have fun!
