Michael E. Auer,

Professor, Carinthia University of Applied Sciences, Austria

Dr. Michael E. Auer is Professor of Electrical Engineering at the Faculty of Engineering and IT of the Carinthia University of Applied Sciences Villach, Austria, and has also taught at the University of Klagenfurt. Furthermore, he works as a Visiting Professor at universities in Germany, Greece, Jordan, and the United States. He is a Senior Member of IEEE; Member of ASEE and IGIP; and author or co-author of more than 170 publications and leading member of numerous national and international organizations in the field of online technologies. His current research is directed to technology enhanced learning and remote working environments especially in engineering. Auer is founder and chair of the annual international IEEE EDUCON, ICL and REV conferences and Chair or Member of the Program Committees of several international conferences and workshops. He works as an Evaluator and Coordinator of European Union funded research projects and is Member in expert groups of the European Commission. He is also Founding President and CEO of the International Association of Online Engineering, a non-governmental organization that promotes the vision of new engineering working environments worldwide. In 2009 he was appointed as Member of the Advisory Board of the European Learning Industry Group. Furthermore, he is Chair of the Advisory Board of the International E-Learning Association and Member of the Board of Consultants of the International Centre for Innovation in Education. In September 2010, he was elected as President of the International Society of Engineering Education (http://www.igip.org). He is also one of the Founders and Secretary General of the Global Online Laboratory Consortium (GOLC). GOLC is the result of an initiative started in 2009 at MIT to coordinate the work on educational online laboratories worldwide.
