Postdoctoral Fellowship in Visual Cognition
University of Notre Dame

Applications are invited for a post-doctoral research fellowship in the Visual Cognition Laboratory in the Department of Psychology at the University of Notre Dame. The laboratory is directed by Prof. James Brockmole. The post will initially be for one year and can be renewed for a second year by mutual agreement. This position is not tied to specific project funding. Therefore, specific activities and research programs will be tailored to the interests of the fellow. The successful applicant to this post may collaborate with lab members to design, conduct, and publish research projects in any area of visual cognition including object and scene perception, gaze control, attention allocation, the representation of visual information in working- and long-term memory, spatial reasoning, and/or the control of visually-guided action. Research involving both young and elderly adult populations is possible. The successful applicant will have the opportunity to either develop or enhance technical skills associated with the design and analysis of eyetracking- and real-world scene-based experiments. The successful applicant will also have the potential to collaborate with other members of a vibrant visual cognition community.

It is essential that applicants have a Ph.D. in cognitive psychology, cognitive science, or a related discipline and possess strong methodological skills related to the conduct of psychological research as evidenced through publications. Experience with eyetracking-based research is a plus, but not a requirement.

The start date for the fellowship is flexible but should be no later than September 1, 2016. Salary will be based on NIH post-doctoral pay scales and will be commensurate with experience. The University provides an attractive array of benefits, including health insurance, which are summarized at [http://hr.nd.edu/assets/121245/p1_benefit_summary_2014.pdf](http://hr.nd.edu/assets/121245/p1_benefit_summary_2014.pdf).

To apply, please send your vita, a brief statement of research interests, representative publications, and the names and addresses (including email) of three references to Prof. James Brockmole. Applications can be made either by email to James.Brockmole@nd.edu or by postal mail to James Brockmole, Department of Psychology, University of Notre Dame, 127 Haggar Hall, Notre Dame, IN 46556, USA.

The evaluation of applications will begin immediately and will continue until a suitable candidate is found.

Informal inquiries regarding this fellowship can be addressed to Prof. James Brockmole at James.Brockmole@nd.edu. More information about the Visual Cognition Lab can be obtained from the lab’s website: [http://www.nd.edu/~jbrockm1](http://www.nd.edu/~jbrockm1). More information about the cognitive psychology program at Notre Dame can be found on the department’s website: [http://psychology.nd.edu](http://psychology.nd.edu).

The University of Notre Dame seeks to attract, develop, and retain the highest quality faculty, staff and administration. The University is an Equal Opportunity Employer, and is committed to building a culturally diverse workplace. We strongly encourage applications from female and minority candidates and those candidates attracted to a university with a Catholic identity. Moreover, Notre Dame prohibits discrimination against veterans or disabled qualified individuals, and requires affirmative action by covered contractors to employ and advance veterans and qualified individuals with disabilities in compliance with 41 CFR 60-741.5(a) and 41 CFR 60-300.5(a).
