None

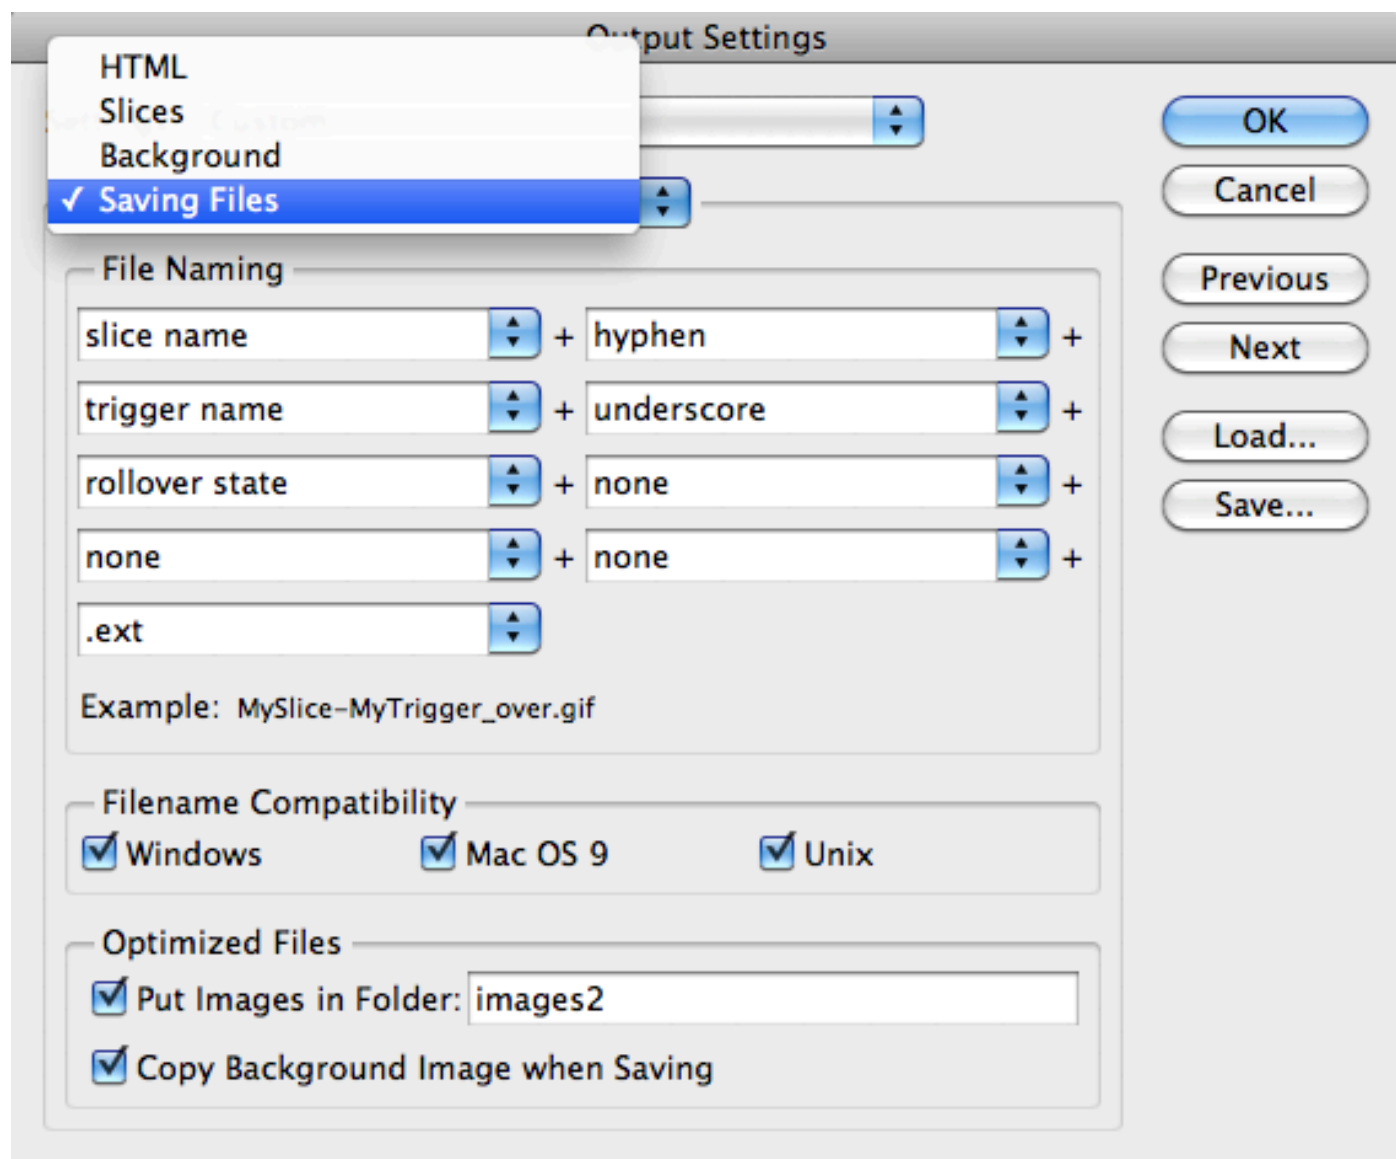

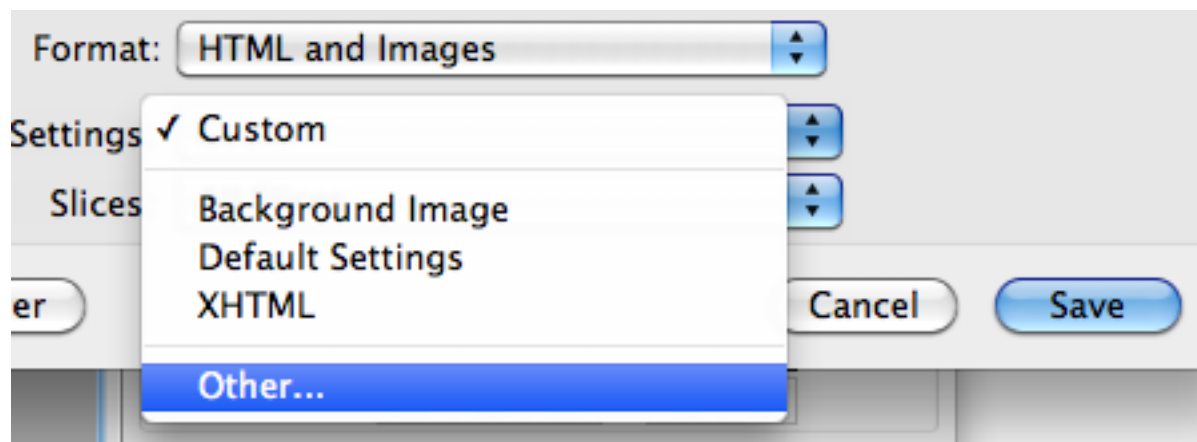

Background Color: ☐

- 6 choose “save for web and devices” from File menu

- 7 choose “Images Only”
the “html and images” would produce a web page with the individual buttons assembled in a table
- 8 choosing custom settings / other will allow you to change a number of settings including where the files are saved
- 9 save each version of your buttons to a different folder

- 10 choose Insert / image objects / navigation bar in dreamweaver
- 11 choose horizontally or vertically
- 12 link all your button image files
