

Fact Sheet for History Channel film, "Declassified: Human Experimentation"

1. The _____ tested LSD in the 1950s on hundreds of unconsenting Americans.
2. _____ is the hospital where the government did covert experimentation on civilians, without their knowledge, for the Manhattan Project.
3. _____ is the first principle, the bedrock principle, of the Nuremberg Code for war crimes and for experimentation on humans.
4. _____ is the year Mousso was first injected with plutonium, and
5. _____ is the year that government-contracted medical doctors told him of experiments on him.
6. _____ is the Albuquerque reporter who used the Freedom of Information Act to discover experimentation on American civilians; it took her 5 years to get the names of some victims, like Mousso.
7. _____ is the number of above- and below-ground nuclear weapons tests in continental US from 1951-1963. Atmospheric weapons tested ended in 1963 because of a treaty.
8. _____ is the number of US soldiers, in peace time, ordered to experience close-range nuclear weapons tests; 500,000 thousand total, were exposed, but some in the latter group volunteered.
9. _____ a Marine pilot who was in the front row of trenches for nuclear weapons tests. He was sworn to secrecy and told it was treasonous to reveal what he was ordered to experience there.
10. _____ number of US states receiving fallout from hundreds of US nuclear tests.
11. _____ the name of the Marine pilot's cancer; he was in the trenches in 1957 for one test, and he died in 1977.
12. _____ Is this type of cancer part of a mysterious increase in America ?
13. _____ Name of the Marine pilot's wife who complained that the government had all the documents on soldiers' exposures, would not share them, and yet required the soldiers to prove their exposures.
14. _____ City where serratio bacteria was sprayed from a military ship.
15. _____ one of 11 people admitted to hospital with serratio infection, after the spraying; he died.
16. The _____ function of the government, based on sovereign immunity, was the reason the judge gave for the 1981 ruling against the family of the man who died from serratio; his grandson brought suit.
17. _____ is the city where the Army (1952) exposed schoolchildren to zinc cadmium sulfide
18. _____ is the name of the school of the children above; later risk assessments showed disproportionate numbers of cancers and mental retardation among the children who were there in the early 1950s. As early as 1953, the children had increased numbers of pneumonia, asthma, and

“Declassified: Human Experimentation,” continued

respiratory problems; there also was increased infant mortality from pneumonia. The tests were not revealed until 1977 (3 years after the Freedom of Information Act)

19. _____ city where US Army tests of biological warfare were done in the subway in 1966.
20. _____ year that the Albuquerque reporter broke the story of human experimentation by the US government for nearly 40 years.
21. _____ The year Clinton formed a US committee to investigate human experimentation.
22. _____ chair of the committee above; the committee concluded that the experiments were wrong, and some of the people were compensated (18), but “no one is the blame” for them. Committee also said that secret experiments, on civilians, by the US government, could take place provided that an “independent committee” approved them.
23. _____ The country (not the US) that sprayed millions of people in biological warfare experiments in the 1950's and 1960's.
