April 6, 2011

Dear Senator:

Our organizations have written to you recently on legislation impacting the Clean Air Act. Today we write to express our opposition to the amendments that will come before the full U.S. Senate in the very near future.

We oppose:
1. Amendment No. 183 by Senator McConnell;
2. Amendment No. 215 by Senator Rockefeller;
3. Amendment No. 236 by Senator Baucus; and,
4. Amendment No. 277 by Senator Stabenow

By blocking the Environmental Protection Agency’s (EPA’s) authority to update clean air standards, each of the above amendments, in its own way, will weaken the Clean Air Act.

If passed by Congress, these amendments would interfere with EPA’s ability to implement the Clean Air Act; a law that protects public health and reduces health care costs for all by preventing thousands of adverse health outcomes, including: cancer, asthma attacks, heart attacks, strokes, emergency department visits, hospitalizations and premature deaths.

Additionally, the public strongly opposes Congress blocking EPA’s efforts to implement the Clean Air Act. A recent bipartisan survey, which was conducted for the American Lung Association by the Republican firm Ayres, McHenry & Associates and the Democratic polling firm Greenberg Quinlan Rosner Research, indicates the overwhelming view of voters:

- 69 percent think the EPA should update Clean Air Act standards with stricter limits on air pollution;
- 64 percent feel that Congress should not stop the EPA from updating carbon dioxide emission standards;
- 69 percent believe that EPA scientists, rather than Congress, should set pollution standards.
The above amendments would strip away sensible Clean Air Act protections that safeguard Americans and their families from air pollution. We strongly urge the Senate to support the continued implementation of this vital law.

Sincerely,

Charles Connor  
President and Chief Executive Officer  
American Lung Association

Georges C. Benjamin, MD, FACP, FACEP (E)  
Executive Director  
American Public Health Association

Dean E. Schraufnagel MD  
President  
American Thoracic Society

Bill McLin  
President and CEO  
Asthma and Allergy Foundation of America

Peter Wilk, MD  
Executive Director  
Physicians for Social Responsibility
