Exam III, Thursday, April 24, 8:00 am - 9:15 am; Room 126 DBRT

Final Exam, Thursday, May 8, 1:45pm - 3:45 pm.

The best way to prepare exams is to work problems and work problems and work more problems. It is important to do homework as the course goes along. If you start working and studying just a few days before an exam, there is no way you can reach the level you would be at if you had done some each week and then reviewed for the exam.

If there are conflicts with exams, please let Professor Cao know during the first week of classes so that we can try to resolve them.

### **How things count:**

Homework and quizzes 25% (150/600); Three midterm exams:  $3 \times 16.66\% = 50\%$  (300/600); Final Exam 25% (150/600). The total grades will be 600.

### **Homework Assignment Policy:**

One third credits will be given each time if you hand in your homework on time. No later homework will be accepted. Homework sets are due every Monday and Friday's lectures.
