MATH 165, Fall 1997

Text: Tom M. Apostol, Calculus vol 1, second edition

Exam Schedules

    Hour Exams: Thur. Sept. 18, 11:00-11:45 am; Thur. Oct. 16, 11:00-11:45 am; Thur. Nov. 20, 11:00-11:45 am

    Final Exam: 8:00-10:00 am December 15, 1997

Students with more than 2 finals in one day, or more than 3 finals in a 24 hour period, may negotiate to change the time of one of these finals. If you intend to request change of schedule please see you instructor as soon as possible. **The schedule of finals is known now, so plan ahead.**

Grading: The grading will be based on a total of 500 points broken down as follows. Each of the three hour exam is worth 100 points; the final is worth 150 points and homework will count for 50 points. The 500 point total will be curved if needed and letter grades assigned.

Honor Code: You may work together on homework assignments, but the final written solutions should be your own. Tests of course should be entirely your own work.

Absences: To miss an hour exam is serious. As soon as possible, contact your instructor. If you oversleep, see your instructor immediately (during the exam if possible). Absence from the final is more serious still. Unless your instructor has a form from your dean authorizing a grade of X, the instructor has no choice but to compute your grade based on a 0 on the final.

Prof. Pit-mann Wong
