

Math 323

F i n a l E x a m i n a t i o n

May 6, 1996

The test consists of 31 multiple choice questions worth 5 points each for a total of 155 points. Please, check that you have in your booklet this cover sheet, an answer sheet, 9 numbered pages of questions, a table of the normal distribution function, a reference sheet containing some formulas for various probability distributions and two empty sheets.

Please, remove the cover sheet and the reference materials. After solving the problems enter your answers in the answer sheet by **crossing out** the correct answer (do not circle them) and return the whole remaining booklet, i.e. the answer sheet **and** all sheets with questions.

Remember that you are bound by the Notre Dame Honor Code.
