

The cell counts shown in Table 2 of the paper are not accurate. In order to obtain the fit statistics shown in table 3, the correct three-way table is the one shown below.

	Network Size								
	Low			Medium			High		
	Culture	Consumption	High	Culture	Consumption	High	Culture	Consumption	High
Family Income at Age 16	Low	Medium	High	Low	Medium	High	Low	Medium	High
Below Average	53	62	17	18	43	13	20	50	33
Average	42	83	26	24	65	53	20	80	51
Above Average	9	28	14	6	20	21	5	24	47
$N = 927$									

┌

I am very grateful to Scott Elliason (University of Arizona) for bringing this to my attention.
