

Quiz 3. February 25, 08. Name:

1. Of all the challenges that Brunelleschi faced in the construction of the dome of the Santa Maria del Fiore which two stand out.

2. Discuss the topic “Alberti and Proportion in Architecture.” Rely on the information in the course packet and consider both Alberti’s writings and his buildings.

3. Consider a floor consisting of 36 identical square tiles arranged in a 6 by 6 pattern. Draw this floor carefully in perspective in the frame provided below by using the method of Alberti.
