

Adobe Spark Video - basic instructions

- Create a **project folder** called “Video Narrative”
- Add the original video clips you have shot
- Download media and add it to the folder
 - Music** - a soundtrack from [youtube.com/audiolibrary](https://www.youtube.com/audiolibrary)
 - Optional - images ([pexels.com](https://www.pexels.com)) or video clips ([videos.pexels.com](https://www.videos.pexels.com))
- Log in** at spark.adobe.com - use a Google login with ND netid@nd.edu
- New Project** - click the large plus sign, choose “Video” (way at the bottom)
- Title** - “Video Narrative”
- Template** - start from scratch
- Theme** - choose one that appeals to you and you can change later
- Music** - upload your soundtrack
- Add Text “slides”** - opening title and closing credits
- Add Video “slides”** for your clips - trim extra footage at beginnings and ends
- Layouts** - use “Fullscreen” for everything or try different ones
- Optional - add Photos or Icons
- Optional - add a voice recording to one or more slides
- Edit** - rearrange the order of the slides, adjust volume, etc.
- Preview** - test your video
- Share** - save or update your work and then copy the link
- ePortfolio** - add a content item, choose “embed”, paste the link
