Principles of Macroeconomics (10020/20020)  
Professor Wyatt J. Brooks  
*University of Notre Dame*  
Spring 2013  

**Course Information**  
Class Time: Tuesday and Thursday, 11:00 – 12:15  
Location: 242 O’Shaughnessy Hall  
Website: [www.nd.edu/~wbrooks/MacroS13.html](http://www.nd.edu/~wbrooks/MacroS13.html)  
Office Hours: TBD  
Office Location: 712 Flanner Hall  
Email: wbrooks@nd.edu  

**Course Overview**  
This course is designed to introduce students to fundamental issues and concepts in macroeconomics. Students will learn about commonly used economic measures (such as inflation, GDP, and unemployment), major economic institutions (such as the Federal Reserve, World Bank and International Monetary Fund), and contemporary events (such as the recent financial crisis, the ongoing European debt crisis, and the growth of China). By the end of the course, students will be prepared for further study in macroeconomics and will be able to understand and critique news and commentary from the popular press.  

**Textbook**  
The only required textbook for this course is *Principles of Macroeconomics* by N. Gregory Mankiw, 6th edition. Students are required to have a simple (non-graphing, non-mobile phone) calculator for exams.
**Course Requirements**

*Problem Sets*

There will be 10 assigned problem sets throughout the semester. Problem sets will consist of three questions drawing from material covered in the readings and lectures. Completed problem sets will not be collected for grading. Instead, a short quiz will be administered in class the following Thursday that will consist of one of the questions from the homework. The quizzes will be scored on a scale from 0 to 5 and returned at the beginning of the next class.

*Midterm and Final Exams*

Two midterm exams will be administered on February 12\textsuperscript{th} and March 26\textsuperscript{th}. Midterms cover material from the lectures and readings. The best study materials for the midterms are the problem sets since the previous midterm. The final exam is scheduled for May 8\textsuperscript{th} from 10:30 to 12:30 in accordance with the university exam schedule. The final exam covers all materials from the course, including material from before the midterms.

*Group Presentations*

Students will be put into groups to complete an in-class presentation. Presentations will take place on April 23\textsuperscript{rd} and 25\textsuperscript{th}. Details and requirements will be discussed after the first midterm.

*Course Grades*

- 20% from the best 8 of 10 quiz scores
- 10% from the group presentation
- 20% each from the two midterms
- 30% from the final exam
Policies

Make-up Exams

Any missed exam will be given a score of 0 unless the student’s absence is excused according to university guidelines. If the student has an excused absence, they must notify me without delay with an explanation so that a make-up exam may be scheduled. If the student also misses the make-up (with a valid excuse) I will apply that exam’s weight to the final exam.

Extra Credit

There is no extra credit in this course of any kind.

Study Groups

I will make every effort to encourage the formation of study groups so that students can discuss the readings and problem sets outside of class time.

Re-grading

If any student believes that their work has been graded incorrectly, they must provide a written explanation of the possible error and submit it to the instructor. The instructor will re-grade the entire quiz or exam, and the student’s score may increase or decrease.

Academic Dishonesty

The Code of Honor will be strictly applied as described in The Academic Code of Honor Handbook. Students will not give or receive aid on quizzes or exams. This includes, but is not limited to, viewing the quizzes or exams of others, sharing answers with others, and using books or notes while taking quizzes or exams. Students can review the code at: honorcode.nd.edu
